***** ABOUT *****

I am an experienced software developer with over 12 years of SME-based employment record, primarily using Microsoft tools and technologies.

I am a proficient coder in several programming languages encompassing the entire stack from writing robust and efficient back-end code to implementing clear and consistent front-end.

***** OBJECTIVE *****

I am looking to expand my exposure to UNIX/Linux ecosystem and culture. Having worked predominantly with Microsoft tech stack, my aim is to transfer my valuable platform-agnostic skillset towards other tools and languages. I am particularly interested in developing cloud-native distributed systems in ♥ Go ♥ Programming Language using Microservices.

***** SKILLS *****

- | | |
|--------------------------------|------------------------------------|
| » C# Programming Language | » Go Programming Language |
| » ASP.NET Web Development | » Node.js/npm/gulp/bower |
| » Microsoft SQL Server | » NoSQL Databases |
| » JavaScript/TypeScript | » Apache Cordova/PhoneGap |
| » HTML/CSS/LESS/SASS/Bootstrap | » UI Frameworks (Angular/Knockout) |
| » Git/SourceTree | » Visual Basic (6.0/.NET) |

***** EXPERIENCE *****

Geeks Ltd	(London, UK)
Technical Lead	(2014 – Present)
Senior Software Developer	(Feb 2010 – 2013)

Geeks Ltd is a multiple award winning company with a focus on bespoke software development. I have worked on more than 20 projects as a Senior Developer and as a Technical Lead in various business domains.

Responsibilities

- » Day-to-day coding, debugging, testing, deployment, and maintenance
- » Team leadership, mentoring developers, and sharing knowledge
- » Pair programming, code review, refactoring, and applying best practices (Design Patterns, SOLID, KISS, and DRY)
- » Attending client meetings and requirement analysis
- » Interacting with PMs and BAs in UX design/wireframing process, project/sprint planning, providing estimations, and task delegation

Achievements

- » Successfully delivered numerous mission-critical client projects on time and on budget
- » Built great self-confidence in leading multiple agile teams
- » Accelerated development process by building internal tools
- » Contributed to company's growth by great performance and training many developers through knowledge sharing and pair programming

Saman Electronic Payment Company	(Tehran, Iran)
Senior Software Developer	(Apr 2009 – Dec 2009)

Responsibilities

- » Implemented a Windows Service to replicate large volume of financial transactions from Oracle to SQL Server for reporting purposes
- » Developed a web-based system to deliver a variety of financial sales reports to merchants

Achievements

- » Optimised complex SQL queries to deliver efficient merchant reports
- » Developed knowledge about payment transaction standards

Nofasoft	(Tehran, Iran)
Software Developer	(2005 – 2009)

Responsibilities

- » Involved in developing News Studio, news and press software
- » Worked on Aloptim, a software used by aluminium door and window makers to optimise their stock cutting and minimise wastage
- » Developed a portal for real estate agents in Toronto, Canada

Achievements

- » Provided a solution to Cutting Stock Problem using Genetic Algorithms
- » Pleased to offer the company my own developed O/R Mapping tool

Mahfa Co	(Tehran, Iran)
Software Developer	(2004 – 2005)

Responsibilities

- » Re-developed the legacy MS Access accounting and stock management systems using C# (WinForms) and SQL Server
- » Developed back-end logic for financial calculations
- » Developed reusable UI components

Achievements

- » Increased maintainability by improving object-oriented and relational model design
- » Improved UI/UX by re-designing application forms and workflows

Various Companies and Clients	(Evening Work at Home)
Freelance Software Developer	(2007 – 2013)

- » CRUDER O/R Mapper (2007)
Created as a personal project and later used by Nofasoft
- » Alogift (2009)
Wholesaler of branded merchandise and promotional gifts in Iran
- » G.O. Prototype App (2013)
Mobile application to report incidents to police agents across the UK

******* EDUCATION *******

- » MSc Information Systems Development (2010 – 2011)
London Metropolitan University (London, UK)
- » BSc Applied Computer Software (2004 – 2007)
Shamsipour Institute of Technology (Tehran, Iran)
